Answer The Call

When you're answering calls at work, let the phone ring 2 or 3 times before you answer it. If you let it ring more than 3 times, the caller may become impatient and feel that their call is being ignored. On the other hand, if you pick up after the first ring, the caller may be taken aback by the quick answer.

Time to Answer: This is a measurement, usually expressed in seconds, of the time from when a call is received until it is answered by an agent. It is a measure of the call center performance rather than of the agent performance. It does, however, depend on call center agents being available to answer calls when they are scheduled to do so.
