AP Physics 1 is an algebra-based, introductory college-level physics course. Students cultivate their understanding of physics through classroom study, in-class activity, and hands-on, inquiry-based laboratory work as they explore concepts like systems, fields, force interactions, change, conservation, and waves.

I only found this subreddit my last year of AP tests but still I enjoyed talking to and see people in the same boat as me or way way smarter because all of y'all are freaking geniuses. But 10 AP classes and 9 AP tests later (bc physics 1 is not my thing lol) I'm finally headed off to college at my dream school, UCLA.
