Blueshift is the leading SmartHub Customer Data Platform (CDP) that combines customer data, AI and omnichannel orchestration in an easy-to-use platform

Blueshift - SmartHub CDP & Omnichannel Activation

Doppler blueshift is caused by movement of a source towards the observer. The term applies to any decrease in wavelength and increase in frequency caused by relative motion, even outside the visible spectrum. Only objects moving at near-relativistic speeds toward the observer are noticeably bluer to the naked eye, but the wavelength of any reflected or emitted photon or other particle is ...

Blueshift - Wikipedia

Blueshift definition is - the displacement of the spectrum of an approaching celestial body toward shorter wavelengths.

Blueshift | Definition of Blueshift by Merriam-Webster

The terms redshift and blueshift apply to any part of the electromagnetic spectrum, including radio waves, infrared, ultraviolet, X-rays and gamma rays. So, if radio waves are shifted into the ...

In Blueshift (formerly Brian's High Velocity Research Center), you get the chance to fly and jet around vast landscapes at ridiculous speeds. Spread your wings and use your rocket boosters to glide, do tricks, go off jumps, ski, anything you can imagine.

Blueshift on Steam

Blueshift is not something that can be seen with the eye. It is a property of how light is affected by an object's motion. Astronomers determine blueshift by measuring tiny shifts in the wavelengths of light from the object. They do this with an instrument that splits the light into its component wavelengths.
