Category Management | GSA

Category management is not a one-off initiative it is a continuous process that is run category per category. Once the process for a specific category is completed it must be evaluated. The lessons learned will allow adapting the category strategy to changes in the supply market or changes in stakeholders needs.

How to get started for an effective Category Management ...

Category management is a retailing and purchasing concept in which the range of products purchased by a business organization or sold by a retailer is broken down into discrete groups of similar or related products; these groups are known as product categories (examples of grocery categories might be: tinned fish, washing detergent, toothpastes). It is a systematic, disciplined approach to ...

Category management - Wikipedia

It is estimated that when Newton was alive the world's population was about 650 million people. And presumably, most of the people living at that time saw an apple fall from a tree many times. But only Newton asked why. I've been hearing for years that category management is dead, it's not effective, it's archaic...
