Doing business in China is tougher than you think. Not only is the culture vastly different, but China's experience in manufacturing is still developing. It will be a few years before the majority of manufacturers are up to world standards. In the meantime, quality, contract laws, schedules and logistics must be closely monitored. As a result, the things Westerners must do to be successful are far different from dealing with American or European manufacturers. The best way to quickly come up to speed on these differences and how to handle them is to learn from the experience of others. Through over 20 extraordinary executive interviews, Rosemary Coates captured the essence of sourcing and manufacturing in China. '42 Rules for Sourcing and Manufacturing in China (2nd Edition)' is a pragmatic approach that every businessperson headed to China must read. For business people who are experienced in doing business in China, or for first-time visitors, this book will provide valuable insights from real executives and experts. These executives offer their personal experiences and recommendations about sourcing and manufacturing in China. Going beyond simple cultural do's and don'ts, you will discover: how business is really done how you can make things happen in China the mistake westerners often make, and how to avoid them what made these executives successful Based on her 25 years of supply chain experience, much of it spent living and working across Asia, Rosemary Coates has become an expert on doing business in China. Her own personal experiences in China are interwoven into this book.

With few exceptions, the service business is viewed as a "necessary evil." Servicing products, after they are sold and in customers' hands, is frequently overlooked and can be a source of customer dissatisfaction and profit loss. This thinking results in missed opportunities to convert customers into advocates and to generate significant business revenue. If you are in the field service business, you should be designing solutions that benefit the customer and are profitable for your company. This includes developing a field service strategy, organizing the service business, optimizing field inventories, implementing Customer Relationship Management (CRM) and tailoring sales incentives. Complicating field service operations in today's environment is the global nature of the installed base and where in the world your products and spares are manufactured. Sourcing global parts, managing the parts supply chain and the investment required are the things that keep managers up at night. This book provides 42 essential rules to benchmark and develop a global service business. You will learn: How to develop a profitable field service strategy and organization How to survey customers and drive improvement in field service operations The impact of poor field service on the bottom line What to do in an emergency What to consider when developing field repair inventories What systems and tools to consider ...and much more Rosemary Coates and Jim Reilly have a combined 50+ years of global manufacturing and field service experience from companies such as Hewlett Packard and Cisco as well as the US Military. In addition they have worked on consulting engagements with a proven track record of amazing field service results. They offer insights and recommendations based on real-world experience

Inside sales is the fastest growing sales channel due to its cost effective nature. An inside sales rep can handle far more contacts on a daily basis than their field sales counterpart. If you are a "C" level executive with responsibility for delivering revenue, you cannot afford to overlook the rules contained in this fast-paced, powerful, book. '42 Rules for Building a High-Velocity Inside Sales Team: Actionable Guide to Creating Inside Sales Teams that Deliver Quantum Results' will help you and your team understand:

- The key elements required to build a high-velocity inside sales team that will accelerate your revenue.
- The different types of inside sales teams you can leverage, how and where to staff them, and the types of tools that are required for them to operate effectively.
- The importance of a common sales language, consistent processes and clearly defined weekly metrics.

With the popularity of inside sales skyrocketing, so is the demand for inside sales talent. Lori Harmon and Debbi Funk prepare you with the info you need to make smart choices when building a high-velocity inside sales team; This includes recognizing the specialized skills required to manage and lead an inside sales team, understanding the skills required of an ideal inside sales rep, and quantifying the cost of a bad hire. Pick up this book and see for yourself the value that these rules will help you bring to your organization.

How e-commerce giant Alibaba is giving grassroots entrepreneurs the power and drive to succeed in the e-commerce market—and you can, too... The world's largest online trading platform, Alibaba has created an astounding model for enterprise and growth in the 21st century. The story behind Alibaba's incredible success is not only fascinating, it's truly inspiring—especially if you're a small business owner or ambitious entrepreneur who wants to increase sales, satisfy customers, and drive innovation in the e-commerce world. THE ALIBABA WAY will show you: * How rural villagers with little experience—and even less resources—are lifting themselves out of poverty using Alibaba's online trading site, Taobao.com * How small local businesses are growing into nationwide industries by adapting to the needs, preferences, and buying habits of Alibaba customers * How online sellers are finding exciting new ways to "routinize" innovation by using the Alibaba platform to identify trends, customize services, and boost production * How grassroots individuals can borrow money without a credit record or collateral; and make money by establishing a wealth management account Now available in America for the first time, the case studies and targeted essays in this eye-opening book reveal the greatest sales secrets of China's amazing online successes—secrets that can be used to grow your own small business into a sustainable, global powerhouse. This is the most cost-effective way to make the most of your resources—and take the e-commerce world by storm. This is The Alibaba Way—growing by unleashing grassroots entrepreneurship. It's the ultimate e-commerce success story—a powerful new growth model for small business start-ups and grassroots entrepreneurs. Part eBay, part Google, part PayPal, the Chinese company known as Alibaba was launched by its founder Jack Ma in 1999 in a small apartment with a staff of only eighteen people. It quickly became one of the fastest growing Internet companies in the world, with more than 10 million e-commerce participants and a digital ecosystem serving a hundred million consumers per day. In The Alibaba Way—the first full-length account of this e-commerce phenomenon—you'll go behind the scenes and inside the sites that drive seemingly ordinary online sellers to extraordinary levels of success. Their stories will provide you with not just a road map to riches, but an invaluable lesson in entrepreneurship. You'll learn how to: * Unleash your entrepreneurial spirit and grow a grassroots empire * Make innovation a routine of your daily business operation * Use emerging technologies to expand your company across multiple markets * Tailor your online presence to meet changing customer's needs and habits * Increase your productivity by making your vendors more productive * Go global, get mobile, and turn your e-business start-up into a worldwide success Featuring brilliant insights and advice from global business experts, The Alibaba Way offers American entrepreneurs a rare opportunity to see the latest innovations—and borrow the greatest ideas—from a new generation of young Chinese entrepreneurs inspired by the Alibaba model. You'll learn how to compete with the biggest and the best—even if you have the smallest of budgets—by leveraging the power of microfinance and e-commerce to help level the playing field. You'll hear exhilarating stories from a small rural community transformed by the introduction of Internet access, discovering creative new ways to sell and trade and grow their businesses, the Alibaba way. Most importantly, you'll find practical, proven strategies of online selling that have turned small businesses into major players—and Alibaba into the e-commerce giant it is today. There are so many ways to take your business online. But the best way to make it grow and succeed beyond your wildest dreams is The Alibaba Way. Dr. Ying Lowrey is an Economics Professor at the School of Social Sciences, Tsinghua University, and Deputy Director of Tsinghua Research Center for Chinese Entrepreneurs. Previously she was senior economist at the US Small Business Administration and professor of economics at several US universities. She believes in that the Internet makes small even more beautiful.

Marketing, sales, and business development executives face constant pressure to boost revenue. This book is a brainstorming tool meant to provoke discussion and creativity within executive teams who are looking to boost their top line numbers. '42 Rules for Growing Enterprise Revenue' is based on two concepts: No effective effort to grow a company is ever contained within a single function There is no silver bullet -- you have to keep trying new things and making bets So, this isn't a marketing or sales book; it doesn't focus on a single idea or framework. Instead, it discusses many different ways that companies have succeeded in boosting sales. This collection of practical ideas about the strategies that raise sales combines Lilia Shirman's observations from almost 20 years of experience in marketing, business development, strategic alliance management and operations with stories and lessons from other technology business leaders. The rules cover a broad spectrum of concepts, including: Laying the foundation for growth New market entry Sales enablement Solutions Industry specialization Demonstrating value Some rules are reminders of the things you know you "should do" but never implemented. Others might spark new ideas, or inspire different approaches to old ones. A few are warnings about the roadblocks you'll want to avoid. All are practical, concise, and actionable.
