The first authoritative biography of Babaji, the immortal master made famous by Yogananda's Autobiography of a Yogi, an all-time best-seller. Babaji lives today near Badrinath, in the upper Himalayan mountains. His body has not aged since the age of sixteen, when centuries ago he attained the supreme state of enlightenment and divine transformation. This followed his initiation into scientific art of Kriya Yoga by two deathless masters, the siddhas Agastyar and Boganathar, who belonged to the "18 Siddha Tradition", famous among the Tamil speaking people of southern India. This rare account, by a long time disciple, reveals their little known stories, ancient culture and present mission, as well as how their Kriya Yoga can be used to bring about the integration of the material and spiritual dimensions of life. Clear explanations of the psychophysiological effects of Kriya Yoga and guidelines for its practice are given. It includes verses from the Siddhas' writings with commentary. A book which will inspire you.

Babaji dictated these three books to V.T. Neelakantan, who wrote them down verbatim.

Through it we become aware of That which is aware; which is the one constant underlying all of our thoughts and experiences. Babaji's Kriya Yoga is a means of self-knowledge, of knowing our selves and the truth of our being. It brings action with awareness and a devotional spirit into our practice of asanas, pranayama, meditation, mantras and also into all our thoughts, words, dreams and desires and actions. This sadhana has enormous potential to make us more conscious human beings. It requires the willingness of the body, mind, heart and will, to align with the soul in aspiration of purification and perfection. This book
