Young Brian Harris began driving for his father in an Albion Chieftain in 1960. When Jerry Harris passed, Brian bought out the Miners' family and the company became Brian Harris Transport Limited. With his fleet of ERF lorries fitted with Gardner engines, Brian set about running the company in a way only understood by him. Over the course of its existence, the company utilized a vast quantity of magnificent machines, including the first ERF 'A' series in that area, the Leyland Roadtrain and one Leyland DAF. Brian Harris died in April 2012 and his funeral was attended by over 600 people from all over the UK. This new edition gives an update to the events that have taken place since the second edition was published in 2007, including the eulogy given by the author at the funeral and 82 previously unpublished photographs.
