The purpose of this 6th edition remains the same as the first five editions -- to provide an introduction to the scope, characteristics, and management aspects of the commercial recreation and tourism industry. This book offers a blend of conceptual and practical material to achieve a basic understanding of this diverse industry. While some of the content is oriented toward large and established businesses, the text also has an entrepreneurial orientation that is particularly applicable to smaller businesses and organisations. Future commercial recreation and tourism entrepreneurs will gain a wealth of useful ideas and information from these pages.

Integrated Energy Systems for Multigeneration looks at how measures implemented to limit greenhouse gas emissions must consider smart utilization of available limited resources and employ renewable resources through integrated energy systems and the utilization of waste energy streams. considers the main concepts of thermal and conventional energy systems through detailed systems description, analyses of methodologies, performance assessment and optimization, and illustrative examples and case studies. The book examines producing power and heat with cooling, freshwater, green fuels and other useful commodities designed to tackle rising greenhouse gas emissions in the atmosphere. With worldwide energy demand increasing, and the consequences of meeting supply with current dependency on fossil fuels, investigating and developing sustainable alternatives to the conventional energy systems is a growing concern for global stakeholders. Analyzes the links between clean energy technologies and achieving sustainable development Illustrates several examples of design and analysis of integrated energy systems Discusses performance assessment and optimization Uses illustrative examples and global case studies to explain methodologies and concepts

Polymath Rabindranath Tagore was the first non-European to be awarded the Nobel Prize for Literature in 1913. But Tagore was much more than a writer. Through his poems, novels, short stories, poetic songs, dance-dramas, and paintings, he transformed Bengali literature and Indian art. He was instrumental in bringing Indian culture to the West and vice versa, and he strove to create a less divided society through mutual respect and understanding, following the example of his great contemporary and close friend, Mahatma Gandhi. In this timely reappraisal of Tagore's life and work, Bashabi Fraser assesses Tagore's many activities and shows how he embodies
