This document addresses procedures for testing urine, including materials and equipment; macroscopic/physical evaluation; chemical analysis; and microscopic analysis.

President Obama may have delivered on his campaign promise to kill Osama bin Laden, but as an Al-Qaeda strategist, bin Laden has been dead for years. This book introduces and examines the new generation of Al-Qaeda leaders who have been behind the most recent attacks. Investigative journalist Syed Saleem Shahzad dedicated his life to revealing the strategies and inner workings of Al-Qaeda and the Taliban. He had access to top-level commanders in both movements, as well as within the ISI, Pakistan's intelligence service. Shahzad's work was praised by US Secretary of State Hillary Clinton for "bringing to light the troubles extremism poses to Pakistan's stability." Inside Al-Qaeda and the Taliban explains the wider aims of both organizations and provides an essential analysis of major terrorist incidents, including the 2008 Mumbai attacks. In May 2011, Shahzad was abducted and killed in Pakistan, days after writing an article suggesting that insiders in the Pakistani navy had colluded with Al-Qaeda in an attack on a naval air station. This book is a testament to his fearless reporting and analytical rigor. It will provide readers worldwide with invaluable insights into the new phase of the ongoing struggle against terrorism which threatens to tear apart the fragile fabric of so many countries.

Featuring more than 400 full-color digital intraoperative photographs, this atlas is a comprehensive "how-to" guide to heart, lung, liver, kidney, and pancreas transplantation. It presents photographs and succinct descriptions of every step of each operation—including patient positioning, dissection and exposure, retraction, anatomic details, anatomoses, completion, and drain placement. Photographs have been taken from multiple angles, including directly overhead wherever possible. Anatomic and technical variations are illustrated by drawings. Coverage includes procurement and transplantation of cadaver organs, operations to obtain organs from living donors, and transplantation of living donor organs. The liver and kidney sections include pediatric transplantation.

DigiTech's latest, the GNX4 guitar workstation, is an extremely clever box. It combines signal processing, RAM recording, a computer interface, drum machine, MP3/MIDI sequence playback, a MIDI interface, and more...

IEC 61850-Based Smart Substations: Principles, Testing, Operation and Maintenance systematically presents principles, testing approaches, and the operation and maintenance technologies of such substations from the perspective of real-world application. The book consists of chapters that cover a review of IEC 61850 based smart substations, substation configuration technology, principles and testing technologies for the smart substation, process bus, substation level, time setting and synchronization, and cybersecurity. It gives detailed information on testing processes and approaches, operation and maintenance technologies, and insights gained through practical experience. As IEC 61850 based smart substations have played a significant role in smart grids, realizing information sharing and device interoperation, this book provides a timely resource on the topics at hand. Contributes to the overall understanding of standard IEC 61850, analyzing principles and features Introduces best practices derived from hundreds of smart substation engineering applications Summarizes current research and insights gained from practical experience in the testing, operation and maintenance of smart substation projects in China Gives systematic and detailed information on testing technology Introduces novel technologies for next-generation substations

This book teaches readers how to identify plants--and their uses--within groups and families. Botany in a Day provides simple techniques for plant identification, plus line drawings that highlight family characteristics, and plant entries that discuss med

In 2080, technology has gone too far for J.L. Cooper. He thinks he can avoid pop travel teleportation, until he stumbles onto a video of a traveler who turns to dust. Sparking a series of murders, attempts on his life, and threats to his brother, Cooper wants to pass off the evidence but knows he's being watched and can't trust anyone. And who would believe him? With help from the neurotic, genius "Creator" and a beautiful Southern charmer, Cooper faces his fears and pop teleports around the world to escape corporate killers and find a way to shut down Pop Travel or die trying. No problem.
