In thousands of years of tilling the soil, we have created a great variety of garden tools to dig, cut scrub, harrow fields, and trim borders. What makes the tools unique, and collectible, is the way function has dictated form, resulting in not only ingenious shapes, but artistic ones. In the 19th and early 20th centuries garden tool catalogues listed hundreds of task-specific tools including dibbers, mattocks, potato hoes, onion hoes, daisy grubbers, claws, weeders, forcers, straighteners, garden row markers, garden reels, rakes, watering cans, water tanks, lawn mowers, lawn rollers, weed whackers, and many more. This book looks back at two hundred years of garden history, and attempts to identify the tools and accessories that gardeners used, and as much as possible identify their specific functions. With over 750 colour photographs, concise captions, and a guide to prices in today's antique marketplace, this is a useful as well as beautiful exploration of garden implements.

J. M. Adovasio has spent the last thirty years at the center of one of our most fiery scientific debates: Who were the first humans in the Americas, and how and when did they get there? At its heart, The First Americans is the story of the revolution in thinking that Adovasio and his fellow archaeologists have brought about, and the firestorm it has ignited. As he writes, "The work of lifetimes has been put at risk, reputations have been damaged, an astounding amount of silliness and even profound stupidity has been taken as serious thought, and always lurking in the background of all the argumentation and gnashing of tenets has been the question of whether the field of archaeology can ever be pursued as a science."

Ilse Grubrich-Simitis, well-known as a Freud scholar and editor of Freud's works, has long advocated a return to his original texts in order to comprehend fully the power and innovative force of his theories. In Early Freud and Late Freud she examines the earliest psychoanalytic book, Studies on Hysteria, which Freud wrote together with Breuer, and Moses and Monotheism, Freud's last book. The essay on Studies on Hysteria reveals to the reader why that book is indeed the 'primal book' of psychoanalysis. Not only does it offer a moving and dramatic account of the birth of the psychoanalytic method, but by introducing the key concept of trauma it establishes a foundation on which much of modern psychoanalysis has been built. Freud was to return to his original theory of trauma in his last book, Moses and Monotheism, where he developed it further in the light of his intervening researches. On the basis of her study of the Moses manuscripts and by applying the psychoanalytic method, Ilse Grubrich-Simitis shows how contemporary traumatic events in Nazi Germany may have influenced this return to the beginning and the intensification of Freud's self-analysis. This in turn was to lead to new insights into archaic forms of defence, pointing the way forward for modern psychoanalysis. Elegantly constructed and persuasively argued, Early Freud and Late Freud re-establishes the importance of two major Freudian texts, offering a new understanding of their significance.

A user-friendly operational manual for seashore paspalum, an exciting new grass perfect for use on golf courses, lawns, sports fields, and in sod production! Seashore Paspalum provides an exciting alternative grass of comparable texture and quality to hybrid bermudagrasses that can tolerate effluent, brackish, and seawater blends. Salt-sensitive species can lead to huge management costs, while salt-tolerant seashore paspalum can significantly reduce management efforts saving your time and money--without sacrificing turf quality!

Reminisces and miscellaneous writings and poems of the author.

Midwifery & Women's Health Nurse Practitioner Certification Review Guide, Third Edition is a comprehensive review designed to help midwives and women's health nurse practitioners prepare for certification exams. Based on the American Midwifery Certification Board (AMCB) and the National Certification Corporation (NCC) test blueprints, it contains nearly 1,000 questions and comprehensive rationales representing those found on the exams. Completely updated and revised with the most current evidence and practice standards, the new edition incorporates expanded content on pharmacology, pathophysiology, and diagnostic tools. Important Notice: The digital edition of this book is missing some of the images or content found in the print edition. Please note Navigate Test Prep is not included with the eBook and must be purchased separately.

A classic and best-selling text for sod and turfgrass courses covering lawnkeeping and athletic groundskeeping.

A 192 pages diary with year planner, world time zone, address book, personal details and body mass measurement. 2 days a page with monthly calendar on each page.
