Featuring the best in iconic horror, science fiction and fantasy, comes Vampirella Archives Volume 6! Starting off with issue #36 which celebrates the 5th anniversary of Vampirella and her magazine and ending the volume with #42. All the best in the industry are featured in this collection showcasing memorable classics by Archie Goodwin, Jose Gonzalez, Esteban Moroto, Felix Mas, Sanjulian, Enrich and countless others.

Outer Limits features more than 200 meticulously restored, full-color comics pages by Ditko in his early prime. This volume's suspense and mystery stories¶thanks to the inspiration Ditko took from space travel comics¶heavily weighted to the science fiction genre. Ditko rocketed into the vast outer reaches of the universe to craft tales that tapped into the fears and aspirations of middle America coming to terms with the Cold War and the beginning of the space race with Soviet Russia.

This is a history of the decades-long love affair between a powerful alternative sexuality called BDSM (bondage/discipline, dominance/submission, sadism/masochism) and an innovative narrative genre called science fiction and fantasy (SF&F). The book shows how SF&F provides easy access to the language, symbols, rituals and ethics of BDSM. Science fiction and fantasy offer strikingly positive representations of BDSM, while the marginal status of SF&F ensures that these representations will not normalize BDSM out of existence. These sympathetic yet subversive representations encourage audiences to view BDSM as an ethical sexuality, while simultaneously permitting BDSM to retain its transgressive identity. This book explores representations of BDSM in the Wonder Woman comics of the 1940s, in the novels and short stories that Samuel Delany and James Tiptree wrote between the 1960s and 1980s, and in the television shows of the 1990s and 2000s: Buffy, Angel, Battlestar Galactica and Dollhouse.

A literary and political genealogy of the last half-century, Words of Witness explores black feminist autobiographical narratives--in particular by June Jordan, Edwidge Danticat, Melba Beals, Rosemary Bray, and Eisa Davis--in the context of activism and history since the landmark 1954 segregation case, Brown vs. the Board of Education.

This book, first published in 1961, is an analysis of the great struggle of the twentieth century, the Cold War. It carefully examines the conflict's origins in the Russian Revolution of 1917, and follows the thread of antagonism between west and east all the way up to 1960. These were the key years of the Cold War, when it seemed that the prospect of nuclear confrontation was a real one, and this book offers a close reading of the main events of those years. This volume concentrates on the European theatre, and Volume Two focuses on the Cold War in the East.
