The Routledge Handbook of English Language Teaching is the definitive reference volume for postgraduate and advanced undergraduate students of Applied Linguistics, ELT/TESOL, and Language Teacher Education, and for ELT professionals engaged in in-service teacher development and/or undertaking academic study. Progressing from 'broader' contextual issues to a 'narrower' focus on classrooms and classroom discourse, the volume's inter-related themes focus on: ELT in the world; contexts and goals planning and organising ELT: curriculum, resources and settings methods and methodology: perspectives and practices second language learning and learners teaching language: knowledge, skills and pedagogy understanding the language classroom. The Handbook's 39 chapters are written by leading figures in ELT from around the world. Mindful of the diverse pedagogical, institutional and social contexts for ELT, they convincingly present the key issues, areas of debate and dispute, and likely future developments in ELT from an applied linguistics perspective. Throughout the volume, readers are encouraged to develop their own thinking and practice in contextually appropriate ways, assisted by discussion questions and suggestions for further reading that accompany every chapter. Advisory board: Guy Cook, Diane Larsen-Freeman, Amy Tsui, and Steve Walsh

The Handbook of Technology and Second Language Teaching and Learning presents a comprehensive exploration of the impact of technology on the field of second language learning. The rapidly evolving language-technology interface has propelled dramatic changes in, and increased opportunities for, second language teaching and learning. Its influence has been felt no less keenly in the approaches and methods of assessing learners' language and researching language teaching and learning. Contributions from a team of international scholars make up the Handbook consisting of four parts: language teaching and learning through technology; the technology-pedagogy interface; technology for L2 assessment; and research and development of technology for language learning. It considers how technology assists in all areas of language development, the emergence of pedagogy at the intersection of language and technology, technology in language assessment, and major research issues in research and development of technologies for language learning. It covers all aspects of language including grammar, vocabulary, reading, writing, listening, speaking, pragmatics, and intercultural learning, as well as new pedagogical and assessment approaches, and new ways of conceiving and conducting research and development. The Handbook of Technology and Second Language Teaching and Learning demonstrates the extensive, multifaceted implications of technology for language teachers, learners, materials-developers, and researchers.

The Routledge Handbook of English Language Teacher Education provides an accessible, authoritative, comprehensive and up-to-date resource of English language teacher education. With an overview of historical issues, theoretical frameworks and current debates, this handbook provides unique insights into a range of teacher education contexts, focusing on key issues relating to teacher and learner priorities, language and communication, current practices, reflective practice, and research. Key features include: a cross-section of current theories, practices and issues, providing readers with a resource which can be used in a variety of contexts; the use of data, transcripts and tasks to highlight and illustrate a range of practices, including examples of 'best practice'; 'snapshots' of ELTE from a number of contexts taken from all around the world, and examples of current technological advances, contemporary thinking on reflective practice, and insights gained from recent research. This wide-ranging and international collection of chapters has been written by leading experts in the field. The Routledge Handbook of English Language Teacher Education is sure to be core reading for students, researchers and educators in applied linguistics, TESOL and language education.

Providing a comprehensive survey of cutting-edge work on second language learning, this Handbook, written by a team of leading experts, surveys the nature of second language learning and its implications for teaching. Prominent theories and methods from linguistics, psycholinguistics, processing-based, and cognitive approaches are covered and organised thematically across sections dealing with skill development, individual differences, pedagogical interventions and approaches, and context and environment. This state-of-the-art volume will interest researchers in second language studies and language education, and will also reach out to advanced undergraduate and graduate students in these and other related areas.

This landmark volume provides a broad-based, comprehensive, state-of-the-art overview of current knowledge and research into second language teaching and learning. All authors are leading authorities in their areas of expertise. The chapters, all completely new for Volume 2, are organized in eight thematic sections: Social Contexts in Research on Second Language Teaching and Learning Second Language Research Methods Second Language Research and Applied Linguistics Research in Second Language Processes and Development Methods and Instruction in Second Language Teaching Second Language Assessment Ideology, Identity, Culture, and Critical Pedagogy in Second Language Teaching and Learning Language Planning and Policy. Changes in Volume 2: captures new and ongoing developments, research, and trends in the field surveys prominent areas of research that were not covered in Volume 1 includes new authors from Asia, Australia, Europe, and North America to broaden the Handbook's international scope. Volume 2 is an essential resource for researchers, faculty, teachers, and students in MA-TESL and applied linguistics programs, as well as curriculum and material developers.

The exponential growth and development of modern technologies in all sectors has made it increasingly difficult for students, teachers and teacher educators to know which technologies to employ and how best to take advantage of them. The Routledge Handbook of Language Learning and Technology brings together experts in a number of key areas of development and change, and opens the field of language learning by exploring the pedagogical importance of technological innovation. The handbook is structured around six themes: historical and conceptual contexts core issues interactive and collaborative technologies for language learning corpora and data driven learning gaming and language learning purpose designed language learning resources. Led by fundamental concepts, theories and frameworks from language learning and teaching research rather than by specific technologies, this handbook is the essential reference for all students, teachers and researchers of Language Learning and TESOL. Those working in the areas of Applied Linguistics, Education and Media Studies will also find this a valuable book.

The Routledge Handbook of Language Awareness is a comprehensive and informative overview of the broad field of language awareness. It contains a collection of state-of-the-art reviews of both established themes and new directions, authored and edited by experts in the field. The handbook is divided into three sections and reflects the engaging diversity of language awareness perspectives on language teaching and teachers, language learning and learners, and extending to additional areas of importance that are less directly concerned with language instruction. In their introductory chapter, the editors provide valuable background to the language awareness field along with their summary of the chapters and issues covered. A helpful section giving further reading suggestions for each of the chapters is included at the end of the book. This volume is essential reading for graduate students and researchers working in the sphere of language awareness within applied linguistics, sociolinguistics and across the wider spectrum of language and communication.
