the long term care restorative nursing desk reference

Restorative nursing can prevent functional decline in residents. However, the benefits may extend beyond preventing decline. Restorative nursing can also improve residents' functional ability. All Medicare- and Medicaid-certified long-term care organizations must maintain compliance with the mandates set out by the Nursing Home Reform Act of 1987. The goal of the Nursing Home Reform Act is to improve the quality of care provided to residents of long-term care organizations.

In short, the Long-Term Care Nursing Desk Reference is the book you and your nurses have been waiting for!

Restorative care nursing, currently referred to as function focused care, is a philosophy and method of care that enables caregivers to actively help older adults achieve and maintain their highest level of function. This is the only volume written to educate caregivers and administrators about the philosophy of restorative care and how to integrate this philosophy in all types of care settings. This updated second edition contains new content in each chapter along with several entirely new chapters on function-focused care for cognitively impaired adults, ethical issues, and patient-centered

This comprehensive text provides the content necessary for training nursing assistants to provide restorative care in long-term care facilities, as required by OBRA law. The content includes measurable objectives and interventions to optimize resident care and to enable facilities to gain maximum reimbursement. This text provides all the information necessary to train nursing assistants in restorative care, as well as, the information required to implement a restorative care training program. It enables the necessary training to advance the certified nursing assistant to the restorative nursing assistant level. Thus, facilities to attain the goal of maintaining or improving residents' conditions. The text focuses on techniques to promote resident involvement, thereby improving resident independence and self-esteem. ALSO AVAILABLE - INSTRUCTOR SUPPLEMENTS CALL CUSTOMER SUPPORT TO ORDER Instructor's Manual ISBN: 0-8273-8142-5 Computerized Testbank ISBN: 0-7668-1433-5

The purpose of restorative care nursing is to take an active role in helping older adults maintain their highest level of function, thus preventing excess disability. This book was written to help formal and informal caregivers and administrators at all levels to understand the basic philosophy of restorative care, and be able to develop and implement successful restorative care programs. The book provides a complete 6-week education program in restorative

care for caregivers, many suggestions for suitable activities, and practical strategies for motivating both older adults and caregivers to engage in restorative care. In addition, the book provides an overview of the requirements for restorative care across all settings, the necessary documentation, and ways in which to complete that documentation.

This comprehensive graduate textbook focuses on the full spectrum of long-term care settings ranging from family and community based care through supportive housing options to a variety of institutional long-term care alternatives. Integrating theory and practice, the book features the perspectives of diverse fields regarding current long-term care options and new directions for the future. Prominent scholars from history, environmental design, family caregiving, gerontology, social service delivery, clinical care, health service delivery, public policy, finance, law, and ethics explore such themes as: Relationships among independence, dependence, and interdependence Ethical considerations in the provision of long-term care Decision-making in long-term care Fluidity and transitions in long-term care The lived experience of long-term care A micro-macro perspective ranging from the individual to societal institutions The book examines future directions for long-term care, considering such factors as the interface of technology and long-term care, cultural diversity, and relationships between voluntary and paid services. Each chapter includes case examples, study questions, and exercises, additional resources, and website links. The appendices provide a glossary and a list of acronyms. Instructor's resources are also available. Key Features: Focuses on the full array of long-term care options Integrates theory and practice Incorporates the perspectives of diverse fields including history, environmental design, family caregiving, social services and public policy Includes numerous case examples, study questions, exercises, and additional resources Considers new approaches to long-term care incorporating technology and considering cultural diversity and the relationship between voluntary and paid services
