The man who loved his dog more than his wife

Dogs actually love physical affection and often seek it out from their favorite people. We're not saying you should pick up your dog and give it a super tight bear hug. Rather, pets, cuddles, leans, and maybe even gentle hugs are strong signals that you and your dog are truly bonded.

A Hollywood dog trainer explains how to use nonviolent, wolf-inspired methods in order to bond with and train canine companions, in a guide that reveals how to employ play-based techniques that elicit desirable dog behaviors.

"The Loved Dog is Tamar Geller s revolutionary guide to effective dog-training using the gentlest of methods. Tamar, whose clients include Oprah Winfrey, Ben Affleck and Goldie Hawn, teaches a groundbreaking socialisation technique for training dogs. By strengthening the bond between dog and owner, dogs begin to enjoy listening to commands with no need for aggressive training aids such as verbal or physical reprimands. Using this technique, The Loved Dog shows you how to child-proof your dog and teach him good behaviour. Tamar s amazing methods have swept across America, changing the way owners train and relate to their canine friends. Tamar believes that loving your dog is the key to its training. In The Loved Dog she shows you how to build this relationship."

From Oprah ' s dog trainer and the New York Times bestselling author of The Loved Dog—a groundbreaking thirty-day plan for coaching dogs of all ages to become housebroken, happy, and well behaved within one month. Long known as a dog coach to the stars—her clients include Oprah Winfrey, Ben Affleck, Courteney Cox-Arquette, Owen Wilson, Natalie Portman, and Larry King—Tamar Geller changed the way Americans relate to their dogs with her bestselling book The Loved Dog. Her approach is simple and down-to-earth. Instead of utilizing the negative and often painful feedback of physical dominance, choke chains, and prong collars, Tamar recommends love, play, and mutual respect as the keys to a happy home for dog and human alike. Now, Tamar makes her Loved Dog™ Method accessible for everyone with this day-by-day guide that will lead you through the first thirty days with your new dog—or help you make a fresh start with your current dog. Drawing on her studies of wolves in the wild and basing her method on the principles of child development, Tamar uses an "instincts versus choice" approach that satisfies a dog ' s Seven Basic Needs and will result in a pet with good manners. 30 Days to a Well-Mannered Dog covers every question commonly asked by people embarking on the momentous journey of dog ownership: why it ' s important to choose the appropriate dog for you and your lifestyle, what you can expect from a puppy versus an adult dog, how to introduce your new dog to your home, and how to respond when things don ' t go according to plan. Tamar guides you every step of the way, from addressing undesired behaviors in your dog to crate and paper training him to introducing him to other dogs and helping him become relaxed with strangers. Included are important but often overlooked tips about the use of words and body language to communicate, the power of play, and the amazing value of teaching your dog some lighthearted pet tricks. Along the way, Tamar debunks myths in need of debunking: that dogs are frequently "alpha" by nature and need to be dominated; that discipline is the key to dog training, and that "success" only means getting your dog to do what you want. Instead, she shows how to align your dog's wishes with your own to create a rich and enduring relationship that works wonderfully for you both. Gentle, firm, and effective, 30 Days to a Well-Mannered Dog will build your relationship with your dog to make every new day together a day of love, joy, and discovery.

Slowly Jack learns the pleasures of writing poetry as Miss Stretchberry encourages him to tell his own story through verse. What emerges is a moving and memorable story about a boy and his dog and his growing passion for poetry.

Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy ' s dogs, among countless others. Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet ' s office, is at ease around strangers, and more. In other words, the best dog ever.

A pioneering canine behaviorist draws on cutting-edge research to show that a single, simple trait—the capacity to love—is what makes dogs such perfect companions for humans, and explains how we can better reciprocate their affection. " Lively and fascinating . . . The reader comes away cheered, better informed, and with a new and deeper appreciation for our amazing canine companions and their enormous capacity for love." —Cat Warren, New York Times best-selling author of What the Dog Knows Does your dog love you? Every dog lover knows the feeling. The nuzzle of a dog ' s nose, the warmth of them lying at our feet, even their whining when they want to get up on the bed. It really seems like our dogs love us, too. But for years, scientists have resisted that conclusion, warning against anthropomorphizing our pets. Enter Clive Wynne, a pioneering canine behaviorist whose research is helping to usher in a new era: one in which love, not intelligence or submissiveness, is at the heart of the human-canine relationship. Drawing on cutting edge studies from his lab and others around the world, Wynne shows that affection is the very essence of dogs, from their faces and tails to their brains, hormones, even DNA. This scientific revolution is revealing more about dogs ' unique origins, behavior, needs, and hidden depths than we ever imagined possible. A humane, illuminating book, Dog Is Love is essential reading for anyone who has ever loved a dog—and experienced the wonder of being loved back.

A tribute to a dozen wonderful dogs who never failed to astonish, delight, exasperate, humble, inspire, comfort, and love the woman who was their caregiver.

After two years of obligatory social service, writer Ivan Cardenas Maturell returns to Havana where he, taking a job editing a veterinary magazine, meets a mysterious foreigner in the company of two Russian wolfhounds who confesses that he killed Leon Trotsky in Mexico City. 15,000 first printing.

An animal behaviorist draws on case studies and the latest scientific research to discuss the truth about a dog's emotional life, its implications for the human-canine bond, and its impact on dog training.
