The Plantagenets - Timeline of the Kings and Queens of England

The Plantagenets: The Kings Who Made England is a history book written by Dan Jones. It was published in 2012 in the United Kingdom and a year later in the United States, where it was listed on the New York Times bestseller list.

The Plantagenets: The Kings Who Made England - Wikipedia

House of Plantagenet, royal house of England, which reigned from 1154 to 1485 and provided 14 kings, 6 of whom belonged to the cadet houses of Lancaster and York. The royal line descended from the union between Geoffrey, count of Anjou (died 1151), and the empress Matilda, daughter of the English king Henry I.

house of Plantagenet | History, Kings, & Facts | Britannica

The Plantagenets By Dan Jones tells the story of the first eight Plantagenet monarchs that ruled England between 1154 and 1399, beginning with Henry I and ending at the fall of Richard II. Each monarch in turn has his story told, which wars he fought in, the land he gained and lost, who he married and who his children were.

The Plantagenets: The Warrior Kings and Queens Who Made ...

Lineage and culture Plantagenet kings were even more French than the Normans (who were largely of Viking blood.) The first Plantagenet was King Henry 2nd whose father owned vast lands in Anjou an area as big as Normandy around the modern town of Tours. Henry ’ s wife Eleanor ruled the even larger territory to the south called Aquitaine.

1154-1216 - The first Plantagenet kings were the Angevins 1216-1399 - The Plantagenets 1399-1485 - The Housses of Lancasterand of York. Normally separated from main stream Plantagenets because they are considered the first truly English rather than French Kings.

Timeline of the Kings and Queens of England - The Plantagenets

Dan Jones is the author of The Plantagenets: The Warrior Kings and Queen Who Made England, a #1 International bestseller and New York Times bestseller, and Wars of the Roses, which charts the story of the fall of the Plantagenet dynasty and the improbable rise of the Tudors. He writes and presents the popular Netflix series Secrets of Great British Castles.

The Plantagenets: The Warrior Kings and Queens Who Made ...

The Plantagenet period was dominated by three major conflicts at home and abroad. Edward I attempted to create a British empire dominated by England, conquering Wales and pronouncing his eldest son Prince of Wales, and then attacking Scotland. Scotland was to remain elusive and retain its independence until late in the reign of the Stuart kings.

Timeline of the Plantagenets - HistoryExtra

This brilliant new book explores the lives of eight generations of the greatest kings and queens that this country has ever seen, and the worst. The Plantagenets - their story is the story of Britain.

England, 1154. As Henry II seizes the throne after years of turmoil, a new dynasty is poised to haul this hitherto turbulent nation out from the Dark Ages and transform it into the nation state we recognize today. Featuring some of England’s greatest but also most notorious kings, the house of Plantagenet would reign for over 300 blood-soaked, yet foundational, years. The dynasty provides some of the most evocative names in our history: from the brave yet rash Richard the Lionheart, his treacherous brother John, the hapless Richard II, and the hero of Agincourt Henry V, through to the controversial Richard III. And in this authoritative, intelligent and grippingly written book, acclaimed historian Derek Wilson brings this thrilling era to life.

The New York Times bestseller, from the author of Crusaders, that tells the story of Britain ’ s greatest and worst dynasty—“ a real-life Game of Thrones ” (The Wall Street Journal) The first Plantagenet kings inherited a blood-soaked realm from the Normans and transformed it into an empire that stretched at its peak from Scotland to Jerusalem. In this epic narrative history of courage, treachery, ambition, and deception, Dan Jones resurrects the unruly royal dynasty that preceded the Tudors. They produced England ’ s best and worst kings: Henry II and his wife Eleanor of Aquitaine, twice a queen and the most famous woman in Christendom; their son Richard the Lionheart, who fought Saladin in the Third Crusade; and his conniving brother King John, who was forced to grant his people new rights under the Magna Carta, the basis for our own bill of rights. Combining the latest academic research with a gift for storytelling, Jones vividly recreates the great battles of Barnockburn, Cr écy, and Sluys and reveals how the maligned kings Edward II and Richard II met their downfalls. This is the era of chivalry and the Black Death, the Knights Templar, the founding of parliament, and the Hundred Years ’ War, when England ’ s national identity was forged by the sword.

In The Restless Kings Nick Barratt presents the tumultuous struggle for supremacy between the first Plantagenet king, Henry II, and his four sons - a drama that tore apart the most powerful family in western Europe and shaped the future of two nations. As well as exploring the personalities and crises facing these extraordinary people as a family, The Restless Kings follows them as they raced around western Europe, struggling to hold together a vast conglomeration of lands - often through force of arms - whilst constantly harried by the their nominal overlord and arch rival, Philip Augustus, king of France. Although the key events took place over 800 years ago, their significance still resonates today. Whether you’re looking for the root causes of Brexit or tension in the Middle East, their origins can be found in the actions of the Angevin kings of England. The Restless Kings will challenge everything you assumed you knew about the medieval world. Above all, it brings to life some of the most remarkable, complex, flawed and brilliant monarchs ever to have sat on the English throne.

Married to loyal Lancaster supporter Sir Richard Pole to minimize her claim to the throne of Henry VII, Margaret becomes an advisor to newlyweds Prince Arthur and Katherine of Aragon before witnessing the rapid ascent of Henry VIII. By the best-selling author of The White Princess. 200,000 first printing.

A complete account of the rulers and politics of the Plantagenet reign.

The author of the New York Times bestseller The Plantagenets and The Templars chronicles the next chapter in British history—the historical backdrop for Game of Thrones The inspiration for the Channel 5 series Britain’s Bloody Crown The crown of England changed hands five times over the course of the fifteenth century, as two branches of the Plantagenet dynasty fought to the death for the right to rule. In this riveting follow-up to The Plantagenets, celebrated historian Dan Jones describes how the longest-reigning British royal family tore itself apart until it was finally replaced by the Tudors. Some of the greatest heroes and villains of history were thrown together in these turbulent times, from Joan of Arc to Henry V, whose victory at Agincourt marked the high point of the medieval monarchy, and Richard III, who murdered his own nephews in a desperate bid to secure his stolen crown. This was a period when headstrong queens and consorts seized power and bent men to their will. With vivid descriptions of the battles of Towton and Bosworth, where the last Plantagenet king was slain, this dramatic narrative history revels in bedlam and intrigue. It also offers a long-overdue corrective to Tudor propaganda, dismantling their self-serving account of what they called the Wars of the Roses.

There are periods in history when things are seen dimly as through a veil. Such were the years from 1377 to 1485. During this time the Chronicles were silent and the sources of information few. And yet these were eventful years, filled with important, strange, colorful and sometimes mystifying events. The Wars of the Roses were fought; a few men began to preach and a nation began to listen to new beliefs; the stout men of the soil rose against feudal injustices; and the greatest of mysteries grew out of the deaths of two princes in the Tower of London. This is the period covered by Thomas B. Costain in THE LAST PLANTAGENETS. It is not claiming too much to say that here the veil has been raised and that throughout the book a bright light plays on this century of excitement and romance and stories stranger than fiction. Here we read of a king who devoted much of his reign to revenge; of the same young monarch riding out boldly to face the peasants demanding a fairer deal; of the winning of Fair Kate of France by the spectacular warrior king, Henry V; of the emergence of a commoner known in history as the Kingmaker; of a ruler who condemned his brother to death and the carrying out of the sentence, according to public report at the time, by drowning the prince in a butt of wine. By way of climax to the saga of the extraordinary Plantagenets with their brilliant successes, tragic reverses and wild extravagances, the last section of the book is devoted to a summary of the case of Richard III. Was Richard the villainous hunchback of stage and story who had his nephews murdered to clear his way to the throne? Or was he the whipping boy of history, whose voice could not be raised in defense from the grave and whose friends did not dare speak out? All the evidence in this unsolved mystery is gathered up and the author achieves in the telling a mounting tension which has never before, perhaps, been reached. Readers today might well raise their eyes from the perusal of newspaper murders to find in this case the strangest and most gripping story of all. This is the fourth, and last, volume in what Thomas B. Costain originally intended to be a history of England. The three earlier volumes were published under the titles The Conquerors, The Magnificent Century and The Three Edwards. Some time in the future the publishers may combine the four, with some necessary additions, to be issued as a history of the Plantagenet kings.

This riveting and authoritative USA Today and Wall Street Journal bestseller is “ a much-needed, modern account of the Normans in England ” (The Times, London). The Norman Conquest was the most significant military—and cultural—episode in English history. An invasion on a scale not seen since the days of the Romans, it was capped by one of the bloodiest and most decisive battles ever fought. Language, law, architecture, and even attitudes toward life itself—from the destruction of the ancient ruling class to the sudden introduction of castles and the massive rebuilding of every major church—were altered forever by the coming of the Normans. But why was this revolution so total? Reassessing original evidence, acclaimed historian and broadcaster Marc Morris goes beyond the familiar story of William the Conqueror, an upstart French duke who defeated the most powerful kingdom in Christendom. Morris explains why England was so vulnerable to attack: why the Normans possessed the military cutting edge though they were perceived as less sophisticated in some respects; and why William ’ s hopes of a united Anglo-Norman realm unraveled, dashed by English rebellions, Viking invasions, and the insatiable demands of his fellow conquerors. Named one of the best books of the year by the Kansas City Star, who called the work “ stunning in its action and drama, ” and the Providence

The lives and political influence of eleven Plantagenet queens and consorts; the female DNA of a dynasty and 250 years of English history.
