Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong

balance of theoretical and conceptual coverage. Students using this book will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods.

This is a solid foundational undergraduate text written from a fresh and innovative perspective. The text is divided into ten sections covering various key theoretical areas in psychology. There are 41 chapters written by contributors representing universities across South Africa and in the United States and UK. A golden thread narrative is written by psychologist, Kerry Gibson, at the beginning of each chapter, linking the concepts explained to the southern African scenario.

Most students, regardless of their major, need to understand information systems and technologies and their importance to the success of business organizations.

While many of today's students have lived with technology their whole lives, they do not see the connection between what they use every day and what they need to understand to be successful in the business world.

Introduction to Business Information Systems, Third

Canadian Edition by James Norrie,

Michelle Nanjad and Mark Huber focuses on IT as a source of business value and outlines the innovative technologies, as well as the innovative ways to

use technology, that help businesses excel.

The goal of this book is to teach students that the effective integration of IS with knowledge can drive the creation of significant business value.

Canadian Edition is written for both the IT and non-IT major. It is written in a friendly, accessible style that will draw students in and engage them with the content. Expanded coverage of highly technical concepts is included in the Technology Core box found in each chapter as well as the TechGuides.

Combining straightforward explanation with scholarly analysis, Law of Evidence introduces students to the full range of topics covered in law of evidence courses, with clarity and depth. Highlighting the context within which the law operates, the textbook maintains an engaging narrative with a strong practical focus. Integrated extracts from key judgments and statutes, as well as academic articles and books, lead students to develop a deeper understanding of the subject, and detailed commentary on these extracts helps

students develop the ability to read and analyse case law effectively. Student learning is further supported by numerous visual aids, including diagrams, flowcharts and tables, which illustrate the relationships between principles and provisions and clarify the complex aspects of the law. A companion website with regular updates to the text ensures that students always have the most up-to-date coverage of the law at their fingertips.

This analytical study examines the function of internal auditing from the viewpoint of its role within organizations and within the economics of societies and governments. Swanson and Marsh place internal auditing in the context of the scientific conceptual framework of Living Systems Theory, and thus provide a basis for a systematic theoretical framework and a theory based on observable, measurable
