A child's death is a family loss. Everyone in the family is affected—fathers, mothers, brothers, sisters, grandparents, aunts, and uncles. This may make it more difficult to get support from those...

*Dealing with the Death of a Child | Psychology Today*

Jealous of the families who haven't been traumatized by the death of a child. You wonder how your life would be different if it hadn't happened. If your child hadn't died. But those fantasies are too much work. Your brain is so tired after your child dies. More tired than you ever thought possible.

*My World Stopped When My Child Died, But I Learned To Live ...*

The death of a child takes an extreme toll on the body. Science has shown that a loss of this magnitude is similar to a major physical injury, so you absolutely need rest. Give in to the urge to sleep if you have it; otherwise, try to establish a nighttime routine—warm bath, herbal tea, relaxation exercises—that can help ease you into a good night's sleep.

*How to Survive the Death of Your Child (with Pictures) ...*

The death of a child is unnatural, unfair, and tragic. It's completely natural for friends of the grieving parents to want to reach out and help, yet still, struggle to find the right words to say because what you say—and what you don't—can deeply affect someone in need.
