Conditional Formatting based on dates I have been searching but i cant solve my issue, I want to conditional format a cell that will be either, Green, Yellow or red depending on the date. If the date I enter in Cell C2 is more than 60 days from today the cell should be green. If the date is less than 60 days from today the cell should be yellow.

Conditional Formatting Based on Dates - Excel Tip
To count numbers or dates that meet a single condition (such as equal to, greater than, less than, greater than or equal to, or less than or equal to), use the COUNTIF function. To count numbers or dates that fall within a range (such as greater than 9000 and at the same time less than 22500), you can use the COUNTIFS function. Alternately, you can use SUMPRODUCT too.

Count numbers or dates based on a condition - Excel
Condition Date means that date which is 30 days after the later of (i) the Acceptance Date and (ii) the date on which the Purchaser receives the last of the Vendor's Deliveries, said date, once known, to be confirmed in writing between the Purchaser and the Vendor or between their respective solicitors.
