For your bees to produce honey, you need to create an attractive space for a hive. You can accomplish this by building or purchasing a bait hive. Once you have the accommodations, you must draw the honeybees to the space. Attracting honeybees to a hive can be accomplished with a variety of luring aromas.

### hive | Graduate Farmer

Bees only sting for defense. They sting to defend the hive and occasionally a single bee will sting to defend herself. (Male bees don't have stingers). Most bee species are not aggressive. If a bee feels threatened near the beehive, they will alert the guard bees that stand guard at the hive entrance. These guard bees will send the troops out.
