Events Management - Google Books

The four major facets of the EMBOK include the Phases, Processes, Core Values, and Knowledge Domains. Taken together these represent the scope of events management and provide the primary categories for a classification system or management system. The Phases illustrate the sequential nature of event management, highlighting the criticality of time in any event project.

EMBOK Facets and Applications

"Event management is the process by which events are conceived, planned, created and assessed. Events are brought to life by the project management of a series of well thought out plans and tasks. Events are experiential by their nature. So management of them means that you must immerse yourself in the event, and not just tick actions off a list. Good event management requires flexibility, strength of character and an ability to connect with people from all walks of life."
