Far From You is a prime example of books written aimed at a Teen / Young Adult audience which can pursue an audience far older than teenagers and still do incredibly well. I am in my early 30s, and devoured this in one sitting without any problem!

"Far from you" is about Sophie, who lost her best friend Mina in a horrible way. In the book we follow her struggle to find her best friend's killer, but also her journey to dealing with the loss of Mina and overcoming a drug addiction. I was impressed by how well the author blends these themes and how they are impossible to separate.
