Steger looks at its causes and effects, examines whether it is a new phenomenon, and explores the question of whether, ultimately, globalization is a good or a bad thing.

Globalization: A Very Short Introduction (4th ed.)

Globalization is a set of social processes that lead to the social condition of globality, through the growing consciousness of global connectivity. There is no consensus on exactly what processes constitute globalization, but common themes include the creation of networks, expansion of social relations, and the acceleration of social exchange.
