Interactive Study Guides are available for Lessons 1-8. These Study Guides combine three important aspects of how people learn best off of screens: visual learning, audible learning, and active interplay between the learner (you) and the screen. When you position your mouse or cursor over an anatomic structure on the screen, you will see the name of the structure, and hear the name pronounced.

Interactive Study Guides | Basic Human Anatomy

Anatomy is one of the most difficult subjects you will have to learn during your studies. It consists of two main divisions: macroscopic (or "gross" anatomy) and microscopic anatomy. The former deals with large structures that are mostly seen with the naked eye, while the latter involves the study of tissues and their organization into organs and systems on a microscopic level.
