Personal Income (Definition, Formula) | How to Calculate?

Profitability index, also known as profit investment ratio and value investment ratio, is the ratio of payoff to investment of a proposed project. It is a useful tool for ranking projects because it allows you to quantify the amount of value created per unit of investment. Under capital rationing, PI method is suitable because PI method indicates relative figure i.e. ratio instead of absolute figure. The ratio is calculated as follows: Profitability index = PV of future cash flows / Initial invest
