aimed to look at the effectiveness of the intrathecal pump therapy for patients with inherited ataxia who also suffer from spasticity. The study found that intrathecal pump therapy provides pain relief for patients who have ataxia and spasticity.

### **Spasticity - Causes, Symptoms and Treatments**

Spasticity is disruption in muscle movement patterns so that muscles contract all at once. Muscle movements are normally controlled by a complex system that allows some muscles to contract (tighten) while others relax. Damage to nerves in the central nervous system can disrupt the pattern. As a result, many muscles may contract all at once.
