noun. The study or use of systems (especially computers and telecommunications) for storing, retrieving, and sending information. 'I am probably one of the few people in the House with a degree in computer science and information technology.'. 'He administered and oversaw the telecommunications and information technology systems for the company.'

## **Information Technology | Definition of Information ...**

The meaning of information. Information began life in English with a specific sense, borrowed from (Anglo-Norman) French: accusatory or incriminatory intelligence against a person. Excepting specific legal contexts, that's no longer an active sense, though it survives as a dominant meaning of related terms like informant and informer. Ostensibly, information became a more neutral term, but it ...
