For an oil to be awarded the TCW-3 rating it must run on the Yamaha 350 at 200:1 at full throttle for 2 hours. If your oil injection pump fails or the oil injection system fails, this will save your butt. When shutting your engine down, first rev it to 3500 RPM and pull on the enrichment chokes (or give it 2 big shots of primer).

All Rotax 2-stroke Aircraft Engines (except the 447 UL) are now provided with an oil injection pump. But because of a lack of an adapted mounting system (as is the case for the Quad City Challenger / Challenger II ultralights), or because of dubious superstitions, some planes are still not equipped with oil injection.

### **Why Choose Oil Injection on Rotax Aircraft Engines - Rotax ...**

There is an oil circulating system in these motors. It takes
