Home - Energy Charter Treaty
The Energy Charter Treaty is one of the most significant multilateral instruments dealing with energy. The Treaty, which entered into force on 16 April 1998, and its related documents, provide an unprecedented legal basis for the creation of an open international energy market for the 21st Century.

THE ENERGY CHARTER TREATY (WITH INCORPORATED TRADE ...
The problem highlighted at the beginning of this research is that the Energy Charter Treaty and the draft Energy Charter Protocol on Energy Transit cannot overcome the possibility of opportunism. The extent to which the factors identified in Chapter 4 are incorporated into the philosophy of the Treaty as a whole is not clear at this point.

The Role of the Energy Charter Treaty: A Critique ...
The Energy Charter Treaty (ECT) is a multilateral treaty in the energy sector, entered into force in April 1998, which gained worldwide recognition mainly because of its provisions on the promotion and protection of investments. The ECT currently has over 45 contracting parties.

The Energy Charter Treaty. The Notion of Investor ...
The tribunal addressed several novel issues arising from the language of Art. 26(7) of the Energy Charter Treaty ("ECT") and made some other general policy considerations. However, in light of the high threshold required to rule a claim as unmeritorious at the 41(5) stage, the tribunal did not take a position on such issues.

Foreign Control in the Energy Charter Treaty: A Company ...
Russia has floated plans for a new global treaty on trade in fossil and nuclear fuel in an attempt to consign to history an earlier pact, the 1991 Energy Charter Treaty.

The controversy behind the Energy Charter Treaty reforms
RAFAEL LEAL-ARCAS. The Commentary on the Energy Charter Treaty (ECT) provides a unique, article-by-article, textual analysis of this important international agreement. The ECT outlines a multilateral framework for cross-border cooperation in the energy sector based on the principles of open competitive markets and sustainable development.

COMMENTARY ON THE ENERGY CHARTER TREATY
CEOs from across the Australian energy sector have committed to the Energy Charter by collaborating across the supply chain to deliver energy for a better Australia. Our core values of "Be invested, make a difference", "Be open, learn and improve", and "Think big, be bold" are brought to life through #BetterTogether initiatives focused on delivering better customer outcomes for all Australians.

The Energy Charter - The Energy Charter
The European Commission today adopted a proposal for a Council Decision authorising negotiations to modernise the Energy Charter Treaty (ECT), to which the EU is part. These negotiations aim to revise the provisions of the ECT so that they reflect modern investment standards, such as the EU's reformed approach on investment protection.

Energy Charter Treaty modernisation: European Commission ...
Beyond the bounds of the European Union, EU energy policy has included negotiating and developing wider international agreements, such as the Energy Charter Treaty, the Kyoto Protocol, the post-Kyoto regime and a framework agreement on energy efficiency; extension of the EC energy regulatory framework or principles to neighbours (Energy ...

Energy policy of the European Union - Wikipedia
On this basis, states negotiated what would become the Energy Charter Treaty (ECT). The ECT, which entered into force on 16 April 1998, is a multilateral treaty designed to create a stable framework to stimulate economic growth and liberalise international investment and trade in the energy sector. [4]

GAR Chapter: The Energy Charter Treaty
The Energy Charter Treaty, Kaj Hobér. Description. The Energy Charter Treaty (ECT) is unique under international law, providing a multilateral framework for energy cooperation through the operation of more open and competitive energy markets, while respecting the principles of sustainable development and sovereignty over energy resources.
