Dani Rodrik

The argument in my book The Globalization Paradox: Democracy and the Future of the World Economy can be expressed in the form of a syllogism. Markets require a wide range of non-market institutions (of regulation, stabilisation, and legitimation) in order to work well and remain socially sustainable.

"The Globalization Paradox: Democracy and the Future of ...

This paradox is illustrated in what he calls the 'Globalisation Trilemma': countries cannot have national sovereignty, hyper-globalisation and democracy; they can only ever choose two out of the three. For many economists, he said, 'a market is a market is a market'. However, this does not always tell the full story.
