Editions of The Logic Book by Merrie Bergmann

Logic 'Paul Tomassi's book is the most accessible and user-friendly introduction to formal logic currently available to students. Semantic and syntactic approaches are nicely integrated and the organisation is excellent, with later sections building systematically on earlier ones. Tomassi anticipates all the most important traps

Logic - Emil O W Kirkegaard

Did someone edit this edition (6th edition)? That includes mistakes in the solutions and instructors manual. Some mistakes are glaring. Imagine you are a student and are hoping your text book provides correct answers and explanations. Considering how expensive the book is, this is a very unprofessional edition.

The Logic Book: Bergmann, Merrie, Moor, James, Nelson ...

Where To Download The Logic Book Student Solutions Manual

forall x is an introduction to sentential logic and first-order predicate logic with identity, logical systems that significantly influenced twentieth-century analytic philosophy. After working through the material in this book, a student should be able to understand most quantified expressions that arise in their philosophical reading.
