The reason for defining the limit of a 50MB deployment package is so users aren't able to directly upload one to AWS Lambda with a greater size. Technically, however, the limit can be much higher if you let your Lambda function pull the deployment package from S3.

The Complete AWS Lambda Handbook for Beginners (Part 3 ...

Skyrocketing mobile broadband demand is driving an ever increasing number of commercial LTE network deployments, more importantly in emerging markets. This surge has seen more than 700 mobile operators commercially launching LTE or LTE-Advanced networks in more than 200 countries by October 2018.
