This book is a collection of reprinted articles from popular magazines about making use of no-cost energy sources. The book is organized into 5 sections: wood energy, water energy, wind energy, solar energy, and methane energy. Some of the articles are interviews with people either use the kind of energy under discussion or helped to develop equipment for using it.

The Winter Harvest Handbook - Mother Earth News

The Mother Earth News Handbook of Homemade Power This book is good, although it's quite "dated" by this time. If you're an "old hippy," this book may bring back some of your old earth power memories, but... otherwise I'd definitely recommend something newer and more up-dated.
