Savage Accutrigger Replacement Trigger from Timney Triggers
Installed this trigger on a pre-Accutrigger 10FP with ~6 pound trigger pull (sort of an anti-accuracy feature). Installation was quick once I realized that the spring wire used on the stock trigger was no longer required. I now have a reliable and very smooth just-over-3 pound trigger - makes it feel like a new rifle.

Trigger control with a factory trigger takes too much effort. Your trigger doesn't match the quality of your firearm. Rifle companies prioritize the most economical choice and aren't focused on trigger performance. You're missing the big shot when it counts. Factory triggers are unnecessarily heavy and unpredictable.
