[PDF ...

Look ahead planning is vital to any construction schedule. Look ahead meetings should last 45 minutes to 1 hour. All trades that have work being performed on site should be in attendance. By using pull plans to feed look ahead sessions, teams plan with much better detail and set realistic start dates for their activities. This look ahead process also provides the avenue to turn work that “should be” accomplished into work that “can” be accomplished.

How to Succeed with the Lookahead ... - Lean Construction

What Is A Look Ahead Schedule? A look ahead schedule in construction outlines what will be happening in the near future on a day-to-day basis. Unlike a master schedule that spans months or even years, the look ahead schedule is specifically meant to outline what’s happening in the next one, two or three weeks.
